PRESS RELEASE

Tejas Networks showcases its innovative products for emerging markets at AfricaCom 2017

Bangalore, November 7, 2017: Tejas Networks (NSE: TEJASNET / BSE: 540595) today announced that it is displaying its latest innovations in the packet optical space at AfricaCom 2017. AfricaCom is Africa's largest telecoms, media and technology event and is being held at Cape Town International Convention Centre, Cape Town, South Africa between November 7th and 9th.

Tejas has a large portfolio of software-defined hardware™ products for building flexible, carrier-grade telecom networks. At AfricaCom, Tejas is displaying its state-of-the-art TJ1400 and TJ1600 products that enable the following capabilities:

- Integrated Broadband Access and Packet Transport services delivered from the same platform including GPON-based fiber broadband, 4G/LTE-based wireless broadband and multi-gigabit Ethernet services for homes and enterprises.
- MPLS-based packet transport with high-fidelity packet synchronization and dense circuit emulation for seamless network transformation from circuit-based 2G/3G networks to pure-packet 4G/5G networks
- Scalable, multi-terabit PTN and OTN switching supporting Nx100G/400G coherent DWDM transmission with alien wavelength capability for national backbone networks, high-capacity Metropolitan Core/Long-haul networks and web-scale Data Center Interconnect (DCI) networks

Meet our senior executives and technology experts at Booth No. B41 to learn more about our award-winning products and solutions.

About Tejas Networks

Tejas Networks designs, develops and sells high-performance and cost-competitive networking products to telecommunications service providers, internet service providers, utilities, defence and government entities in over 65 countries. Tejas products are based on a programmable, software-defined hardware™ architecture with a common software code-base that delivers seamless upgrades of new features and technology standards. The company has filed over 330 patent applications globally in optical and wireless technology areas. Tejas Networks is ranked as the #1 supplier of optical aggregation products in India and is among the top-10 suppliers in the global optical aggregation segment.
